

# 2-DAY PRECISION LASER ALIGNMENT

## TRAINING *For Peak Reliability*

### **Hands-On. Real-World. Proven Results.**

Our best-in-class Real World Experience Alignment Specialists deliver this intensive 2-day training combines instruction with mentor-led, hands-on practice using our running simulators. Participants immediately see results in lower vibration and reduced amps while building precision alignment skills that transfer directly to the shop floor.

*\*Participants bring their own lasers gaining repeatable results using the equipment they'll rely on in the field.*
